

The first part of the document
 discusses the general principles
 of the proposed system. It
 outlines the objectives and
 the scope of the project.

The second part of the document
 describes the technical details
 of the system. It includes
 a detailed description of the
 hardware and software components.

CONCLUSION

In conclusion, the proposed system
 is a significant improvement over
 the existing systems. It offers
 a more efficient and reliable
 solution to the problem.

The system has been tested and
 found to be effective. It meets
 all the requirements and
 is ready for implementation.
