

Anomalien bliver endmere fremtrædende ved, at Skattevæsenet, Pantens, Auktions-, Skiftes og Overformynderivæsenet, samt Alt, hvad der vedrører Landbovæsenet for de flesvigiske Beboere i Løve Herreds 5 Sogne, hører under Lyngumkloster Amt, samt at paa den anden Side Pantens og Auktionsvæsenet for den træiborgske Commune i Emmerlev og Stads Sogne forterer under Lønder Amt, medens Beboerne forøvrigt høre til Ribe Amt i de ikke foran undtagne Anliggender.

At deraf lettelig kan opstaae, og virkelig er opstaaet næsten uopløselige Forviklinger, maa være isænsfaldende, og den af Commissio-

nen foreslaaede Ordning i Consequents af det Princip, som i det blandede District forøvrigt ønskes gennemført, vil derfor fra alle Sider fyldestgjøre et retfærdigt Krav, ligesom den ei heller vil være forbunden med nogen særegen Ulempe.

ad § 12.

Da det er at forudsee, at en hvilken som helst Ordning af de paa mange Maader nuancerede Blandingsforhold i Districtet vil idetmindste i Overgangen foranledige endeel Tvivl, har man anseet det ønskeligt, at det udtrykkeligt udtaltes, at de finde deres Løsning paa den her foreslaaede Maade.
