

1947

1947

1. The first part of the report is devoted to a general survey of the situation in the country. It is based on the results of the work of the various departments and on the reports of the local authorities. The main points are:

2. The economy of the country is in a state of stagnation. The production of goods and services is very low and the standard of living is very low. The main reasons for this are:

3. The lack of investment in the economy. The government has not been able to raise enough money to invest in the economy. This has led to a lack of new factories, roads, and other infrastructure.

4. The lack of technical expertise. The country has a very low level of technical expertise. This has led to a lack of innovation and a low level of productivity.

5. The lack of a stable political environment. The country has been plagued by political instability for many years. This has led to a lack of confidence in the government and a lack of investment.

6. The lack of a sound monetary policy. The government has not been able to maintain a stable exchange rate. This has led to inflation and a loss of confidence in the currency.

7. The lack of a sound fiscal policy. The government has not been able to reduce its budget deficit. This has led to a high level of public debt and a loss of confidence in the government.

8. The lack of a sound social policy. The government has not been able to provide for the basic needs of the population. This has led to a high level of poverty and a lack of social stability.

9. The lack of a sound foreign policy. The government has not been able to establish good relations with other countries. This has led to a lack of trade and investment.

10. The lack of a sound environmental policy. The government has not been able to protect the environment. This has led to a loss of natural resources and a decline in the quality of life.

11. The second part of the report is devoted to a detailed analysis of the various departments. It is based on the reports of the local authorities and on the results of the work of the various departments. The main points are:

12. The Ministry of Agriculture. The Ministry of Agriculture is responsible for the production of food and other agricultural products. It has a very low level of productivity and a high level of losses. The main reasons for this are:

13. The lack of investment in agriculture. The government has not been able to raise enough money to invest in agriculture. This has led to a lack of new farms, roads, and other infrastructure.

14. The lack of technical expertise. The country has a very low level of technical expertise. This has led to a lack of innovation and a low level of productivity.

15. The lack of a stable political environment. The country has been plagued by political instability for many years. This has led to a lack of confidence in the government and a lack of investment.

16. The lack of a sound monetary policy. The government has not been able to maintain a stable exchange rate. This has led to inflation and a loss of confidence in the currency.

17. The lack of a sound fiscal policy. The government has not been able to reduce its budget deficit. This has led to a high level of public debt and a loss of confidence in the government.

18. The lack of a sound social policy. The government has not been able to provide for the basic needs of the population. This has led to a high level of poverty and a lack of social stability.

19. The lack of a sound foreign policy. The government has not been able to establish good relations with other countries. This has led to a lack of trade and investment.

20. The lack of a sound environmental policy. The government has not been able to protect the environment. This has led to a loss of natural resources and a decline in the quality of life.
