

Sord kan paaregnes nogen Forøgelse af Nettoindtægten ud over det ovenstaaende Beløb af 8,000 Kr.

S Bemærkningerne til det Rigsdagen i 1874 forelagte Lovforslag om Bevarelse af Kronborg Amtstue, der blev vedtaget i Landsstinget, men ikke naaede til 2den Behandling i Folkethinget, var Embedsindtægten anslaaet til 7,000 Kr. Forskjellen hidrører fra; at man her har ment at burde benytte de samme Oplysninger, som ere anvendte til Grundlag for Lovforslaget om Amtstueforvalternes Kontorholdsgodtgjørelse, hvorved Skovlassererprocenterne her efter de 5 sidste Aar ere anslaaede til 7,275 Kr., medens man ved den forrige Leilighed anvendte Gjennemsnitsberegning for de 10 sidste

Aar og derved kom til et Beløb af kun 5,700 Kr., altsaa en Forskjel af næsten 1,600 Kr., der kun for en mindre Del opveies ved, at den ifjor anslaaede Kontorudgift viser sig at have været for lav. Søvrigt maa man ikke lade ubemærket, at en Gjennemsnitsberegning for 10 Aar utvivlsomt giver den rigtigste Forestilling om den Indtægt, hvortil dette Embede vedblivende kan anslaaes for en længere Aarrække, saa at det ovennævnte Beløb af 8,000 Kr. utvivlsomt maa anses for at være for høit, naar der ikke, saaledes som ved Lovforslaget om Kontorholdsgodtgjørelse, er Tale om et Forhold, som allerede om 5 Aar skal undergives ny Prøvelse.
